

## PNIA–Nebo Facility

Transtank engaged Hawkins Group to manage and install this Pacific National Maintenance facility.

The scope included procurement, delivery, fabrication and commissioning of all equipment and pipelines. Approximately 1000 metres of stainless steel piping, fuel unloading facilities and bowzers were installed. Hawkins Group, on behalf of Transtank, was responsible for the site safety and for zero LTIs during 3300 person hours.

**Client:**  
Transtank

**Location:**  
Nebo, Central Queensland

**Project value:**  
\$673,000

**Contract type:**  
Lump sum

**Completed:**  
2012
